EURAG MEMORY TRAINING CENTER

Sponsored by the

Czech Society for Memory Training and Brain Jogging

Founded on 19.3.1998 ICO 67983324, charitable trust

Accredited educational institution of Ministry of Social Affairs No 2008/372-1

Chairman: Ing. Danuse Steinova

Committee members: PhDr. Jana Koblihova –vice-chairman, Associate professor PhDr. Marek Preiss Ph.D. - science and research, PhDr.Diana Chrastkova – education; Zdenka Adlerova- co-operation with libraries

Mission:

To promote memory training as an effective tool against mental deterioration in an aging society into public knowledge, organize memory training classes for the public and train memory trainers for the elderly in such classes especially for institutional care. CSMTBJ has been closely cooperating with German, Belgian, Austrian and American experts in forming these programs.

Since April 1994, four years before the official start, the systematic training of memory trainers was launched and there are now over 1.640 trainers presently in the Czech Republic. One ground level course and two specialized seminars are organized every year. The three – level educational program for memory trainers /168 hours in total/ was launched in 2009 with the following output: certified memory trainer I- for the ground level course leavers; certified memory trainer II- for the advanced course leavers; certified memory trainer III- for those who defend successfully their theses which are based on individual experience in concrete conditions, description of monitored array, methodology, results, discussion and examples of own work including personal evaluation of their own contribution to the subject. This educational program has been accredited by the Ministry of Social Affairs No.2009/716-PC/SP

National Day/Week of Memory Training

Has been organized by the CSMTBJ for the first time on March 14th 2005 as a part of the BAW / Brain Awareness Week, www.dana.org/, a worldwide action. The members offered 13 free promotional lectures on memory training focused on the senior population throughout the Czech Republic with 650 participants. CSMTBJ was listed among ten highlight events of BAW 2005.

On March 13th 2006 the second National Day on Memory Training - 27 free promotional lectures throughout the Czech and Slovak Republic with 1.375 participants.

On March 12th 2007 the third National Day of Memory Training took place - its 29 events attracted 1.567 participants throughout the Czech and Slovak Republic.

The intention of this nationwide event is to introduce memory training as an effective tool against mental decline to the ageing population , increasing the self-confidence of the elderly and empowering them for independent living.

2008 National Week of Memory Training took place from March 10-16, in order to expand the positive impact of enlightenment on wider spectrum of population, the main stream is focused on seniors. The members offered 86 free lectures throughout the Czech Republic and 15 in the Slovak Republic, the total number of participants of the NWMT events was 3.247.
